No destinations meet the minimum sample requirement.

- (1) Total Travel & Tourism Exports = travel receipts (purchase of travel and tourism-related goods and services, to include food, lodging, recreation, gifts, entertainment, local transportation in the country of travel, and other items incident to a foreign visit) + passenger fare receipts (fares paid to U.S. air carriers and vessel operators for travel between the United States and foreign countries and between two foreign points).
- (2) Percentage-point and percentage changes are based on non-rounded data.
- (3) Only census region, state, and city destinations having a sample size of 400 or more are displayed. Due to quarterly data weighting by country and port of entry, some unreported destinations may have a higher proportion of total than those reported.
- (**) Estimate not shown due to sample size fewer than 400 for this year.

Note: Estimate not shown due to sample size fewer than 400 for this year. This profile shows only a portion of the 35 travel characteristics data in 2011 and the 37 items reported on international arrivals to the U.S. Additional information may be obtained for a fee.

Survey of International Air Travelers

The Survey of International Air Travelers provides a level of detail and insight into the traveler characteristics and travel patterns of international visitors to and from the United States not found elsewhere. Responses are weighted with data from the Department of Homeland Security and the following thirty-five tables are then populated. This report, which was constructed using just a fraction of the data available, summarizes what we know about the Singapore traveler who visits the United States.
